**Re: Safety Light Corporation, Bloomsburg, Pennsylvania**

Dear Mr. Steinmetz:

In the event you have not received my previous letter, I am writing to advise you that Lockheed Martin Corporation ("Lockheed Martin") has not obtained any pertinent information requested from General Electric ("GE") concerning hazardous substances or radioactive waste that may have been released into the environment at the Safety Light facility. Without such information from General Electric, we are not in a position to respond to EPA's CERCLA 104(e) request with regard to the former GE entity(ies) at issue. Therefore, this will constitute Lockheed Martin's response unless further information is found. If, however, GE provides relevant information to Lockheed Martin in the future, we will respond accordingly at that time.

Please call me if you have any questions.

Sincerely,

  
C. Douglas Goins
